Project Lebanon

For the twelfth consecutive year, Italy was represented at Project Lebanon with an Italian Pavilion. In the 2018 edition of the fair, the Italian Pavilion hosted 16 companies leader in the construction and infrastructure sectors.

The Italian participation confirms the strong interest in the Lebanese market in the infrastructure and construction sector, also as a gateway to other countries in the region.

The Italian Trade Agency (ITA) organized the participation of the Italian delegation to the fair.

The Italian Pavilion covered an area of 210 m² and hosted a Business Center for meetings between Italian and Lebanese companies.

Prime Minister Saad Hariri visited the Pavilion accompanied by Ambassador Massimo Marotti and ITA Director, Francesca Zadro.

The 16 participating companies covered a wide range of products and services: from flooring to doors to bathroom solutions; from marble to glass to mosaic glass; from scaffolding to pipes to water treatment.
