Italian Cooperation Activities on Human Rights and Prisons in Lebanon

The Italian Agency for Development Cooperation (AICS) funded € 3,3 million to improve detention conditions in Lebanon, with particular attention to children, women and prisoners with mental disabilities.

The Italian Cooperation programs involved several Lebanese prisons throughout the country since 2009. The most important one was implemented in the Roumieh prison by the Ministry of Justice and UNODC, in close collaboration with the Ministry of Interior.

The project aimed at improving detention conditions in the largest penitentiary institute in Lebanon:

1. A new central kitchen was activated in the Roumieh prison, together with several training programs on food management, hygiene and safety, with the goal of creating opportunities for income generation during detention and job learning;

2. The so-called “Blue House”, dedicated to the detainees with mental disabilities, was renovated and rehabilitated, expanding at the same time

recreational activities, medical treatment, and specialized training to prison staff;

3. Basic services were improved for the juvenile detainees. AICS funded the distribution of health kits and programs for psycho-social support, including trauma assessments and counselling, for facilitating communications with the families, and for the organization of recreational events.

The project started in October 2015 and completed in June 2017 with the inauguration of the “Blue House” in Roumieh.

The new central kitchen employs several detainees to prepare meals for 3000 prisoners daily.

The second phase of the projects for the protection of human rights and the improvement of living conditions in the Lebanese prisons, involves the Internal Security Forces, the Ministry of Interior, the Ministry of Justice, the Ministry of Social Affairs, local NGOs, and the Italian Ministry of Justice's Tutor for prisoners ("Garante dei Detenuti"). The program, which includes twinning and cooperation activities with Italian experts, has specific objectives:

a. Improvement of physical conditions of detention structures of Tyre, Batroun, Marjayoun, Nabatieh, Verdun, Baabda;

b. Continuing the activities in the Roumieh prison on food quality and security, cooking classes, the rehabilitation of a bakery, a laundry and a carpentry laboratory, creating a garden for juvenile and therapeutic and psychiatric support, ensuring medical visits by specialists, supply of medications dedicated to the mentally ill prisoners in the Blue House, rehabilitation of a promenade area and of a multifunctional room in the Blue House for the detainees and production of a documentary on their situation for society awareness raising;

c. Recovery and support to detainees for social reintegration by providing therapies, socio-recreational, educational and vocational activities, including drama, musical, dancing and sport therapies inside the prisons;

d. Socio-recreational activities and assistance for women in the prisons of Baabda, Verdun, Tripoli and Zahle;

e. Awareness and support to the ISF personnel and relevant institutions through the exchange of experience and collaboration with representatives of Italian authorities for the respect of human rights;

f. Legal assistance for the detainees who are awaiting trial and/or have served their penalty.
